## Summary

Results-driven Backend Developer with **5+ months** of internship experience building enterprise banking systems using Spring Boot and Oracle SQL. Delivered full-stack MERN applications with **~20%** API performance improvement through optimized MongoDB schema design. Solved **300+ DSA problems** with strong foundation in OOP, DBMS, Data Warehousing, and System Design.

## Technical Skills

- **Languages:** Java, JavaScript (ES6+), SQL, C++
- **Backend:** Node.js, Express.js, Spring Boot, Hibernate, JSP, REST API, Microservices, Socket.IO
- **Database:** MongoDB, MySQL, Oracle (SQL, PL/SQL)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Tools & Concepts:** Git, GitHub, Postman, DSA, OOP, DBMS, Operating Systems

## Experience

### Software Developer Intern – Intellect Design Arena

Jan 2026 – Present

Chennai, India | *Spring Boot, JSP, Oracle SQL, PL/SQL*

- Engineered backend modules for **3+ enterprise banking** application workflows using JSP, Spring Boot, and Oracle SQL.
- Optimized **10+ SQL/PL/SQL** queries, reducing data retrieval time and improving application response performance.
- Diagnosed and resolved **5+ production issues** by tracing application logs and backend workflows, increasing system stability.
- Coordinated across **2 deployment cycles**, maintaining zero-downtime releases in production environments.

## Projects

### Syncare – Healthcare Appointment Platform

[GitHub](#) — [Live](#)

*Node.js, Express.js, React.js, MongoDB, Socket.IO, JWT*

2025

- Architected **10+ RESTful APIs** for authentication, scheduling, and patient data management across the platform.
- Reduced API response time by **~20%** by optimizing MongoDB schema design and query structure.
- Implemented real-time appointment notifications via **Socket.IO**, cutting status update delays to under **1 second**.
- Secured the platform with **JWT authentication** and role-based access control across **3 user roles**.

### Typing Speed Test App – Interactive Typing Platform

[GitHub](#)

*Node.js, Express.js, React.js, MongoDB, JWT, Nodemailer*

2024

- Crafted a MERN application tracking real-time WPM, accuracy, and performance metrics across **5+ tracked stats**.
- Engineered **8+ RESTful APIs** for authentication, leaderboard management, and user analytics.
- Implemented secure JWT authentication with automated password reset, reducing manual account recovery steps by **100%**.
- Improved MongoDB query speed by **25%** through strategic indexing and schema optimization.

## Education

### National Institute of Technology, Jamshedpur

Aug 2023 – May 2026

Master of Computer Applications (MCA) | CGPA: 7.8 / 10

### Hemvati Nandan Bahuguna Garhwal University

Jul 2019 – Jun 2022

Bachelor of Science (Mathematics) | CGPA: 7.0 / 10

## Achievements

- Solved **300+ DSA problems** on LeetCode (Max Rating: **1500+**), 250+ on GeeksforGeeks, 100+ on Codeforces.
- Achieved **5-star Badge in Java** on HackerRank.
- Mentored **50+ students** through mock technical interviews on DSA, backend, and system design.
